PLAINTIFF'S RESPONSES TO  
DEFENDANTS' FIRST  
AMENDED STANDARD  
SET OF INTERROGATORIES  
AND REQUEST FOR  
PRODUCTION OF DOCUMENTS

-----x  
**PRELIMINARY STATEMENT AND OBJECTIONS**

Plaintiff, Angelo Demeri, by and through his attorneys, objects to Defendants' Fourth Amended Standard Set Of Interrogatories And Request For Production Of Documents, as well as the Explanation and Definitions and Instructions contained therein ("Interrogatories"), for the reasons that follow below:

Plaintiff objects to the Interrogatories to the extent that they seek to impose upon plaintiff obligations or burdens which are greater than, or inconsistent with New York law.

Plaintiff further objects to these Interrogatories and to each individual request and/or interrogatory, to the extent that they seek information or request the production of documents that are protected from disclosure by the attorney-client privilege, the work product doctrine, and any other applicable privilege or doctrine protecting such documents from disclosure. The production of any document prepared by the plaintiff's attorneys is not a waiver of any privilege. The inclusion of or reference to any attorney's name on any responses is not a waiver of any privilege. Moreover, the documents produced are confidential and may not be disclosed other than to counsel, a party, the court or an expert in this action without order of the Court. Plaintiff, by providing documents in response to these Interrogatories specifically does not admit the competency, relevancy, materiality, privilege and/or admissibility of such document or of the information or subject matter.

Plaintiff has not completed investigating the facts relating to his case, has not completed his discovery, and has not completed preparing his case. Therefore, these responses are preliminary and without prejudice to plaintiff's right to discover and/or produce evidence of

additional facts and/or additional evidence of existing facts. Plaintiff has made a good faith effort to respond to the Interrogatories, but reserves the right to object to, and to move to have vacated, all of these Interrogatories.

Plaintiff objects to the Interrogatories, and to each individual request and/or interrogatory, to the extent that they seek information that is not within plaintiff's own first-hand knowledge or request the production of documents that are not within plaintiff's possession, custody or control.

Plaintiff further objects to the Interrogatories as overly broad and burdensome and demanding an investigation into matters which are neither relevant to these proceeding nor designed to lead to the discovery of evidence relevant to these proceedings.

Plaintiff does not waive and specifically preserves the following objections:

1. Any and all objections to the competency, relevancy, materiality, privilege and admissibility of the information or the subject matter thereof, as evidence for any purpose and any proceeding in this action (including trial) and in other actions.
2. The right to object on any grounds at any time to demand for further responses or further documents to these or any other discovery requests or other discovery proceedings involved or related to the subject matter of the discovery to which information or documents are provided; and,
3. The right at any time to review, correct, add to, supplement or clarify any of these responses.

These objections are incorporated by reference into any amendment and/or supplement to these interrogatories. Moreover, each of these objections is incorporated by reference into to each specific response without regard to whether an additional objection is made in such response.

Subject to these objections and reservations, plaintiff, by and through his attorneys responds as follows:
